UI/UX_Hackathon - Naan Mudhalvan

Institute Name: Anna University, MIT Campus

TEAM NAME: FLORA 🌸

Team Leader: Raveena K - 2023503553

Team Members:

Krishika V - 2023503510

Priyadharshani P - 2023503516

Arunmozhi A - 2023503518

Dharshini Priya A - 2023503552

Priyadharshini S - 2023503554

1. App Name:

Readify

2. What Problem Will the App Solve?

Readify solves the issue of library overcrowding and long queues during peak hours by enabling:

- Real-time book and seat availability tracking

- Online book and study-seat reservations

- Self-checkout and return using QR/barcode

- Automated notifications for due dates and reserved book availability

- Efficient librarian management tools for catalog, reservations, and analytics

In short, it eliminates waiting time, streamlines borrowing and seating, and enhances the overall library experience for both students and librarians.
